

VP550E

The Eco-Friendly POS Solution

The VP550E optimizes the advantages of Android, offering familiar smartphone-like features to enhance customer experience and empower merchants to grow their businesses. This eco-friendly digital receipt solution does not include a built-in printer.

User-friendly and compact

VP550E combines a compact and stylish design with powerful features. It enhances customer interactions everywhere with its top-notch barcode scanner and quick-access buttons, speeding up transactions and boosting reliability.

Futuristic eco-friendly solutions

Embrace the future with this all-in-one solution that moves away from traditional methods. It offers an eco-friendly twist with digital e-receipts. It removes the need for a built-in printer and promotes paperless transactions, saving the environment one transaction at a time.

Convenient contactless and payment solutions

Consider the VP550E your all-around payments partner. It supports multiple transaction methods, including magnetic stripe, chip and PIN, NFC, and QR-code mobile wallets. Serve customers, take orders, and check stock levels efficiently. This device is ideal for merchants focused on innovation and productivity.

Robust capabilities for a variety of business needs

VP550E is equipped with robust capabilities. It offers a range of camera choices with a flashlight, meeting various needs. It works efficiently to guard sensitive data skillfully and perform transactions quickly. From payments to daily operations, the VP550E ensures business operations will run smoothly.

Dual Pricing

The Dual Pricing feature allows businesses to display a transparent card and cash price. This feature enhances flexibility in pricing strategies and helps businesses satisfy diverse customer needs effectively.

Digital Signature Capture

The Digital Signature Capture feature is a reliable solution for businesses needing secure and convenient signatures. The customer has the capability to sign on-screen for a quick and easy transaction.

Menu & Inventory Management

The menu and inventory management feature allows businesses to efficiently track stock levels, update menu items, add new items to prevent shortages, and maintain accurate availability of popular products.
